

**Failed**

The screenshot shows the EMBASE search interface. At the top, there are buttons for 'Search', 'Browse', 'Queue', and 'Clear'. Below these, the search criteria are displayed as 'DBs USPAT; EPO; JPO; DERWENT; USOCR'. To the right, there are checkboxes for 'Plurals' and 'Highlight all hit terms initially'. Below the search criteria, the 'Default operator' is set to 'OR'. The main search area contains the query '6 and (ground adj layers)'. At the bottom, there are tabs for 'RBS term', 'RAB term', 'RAC term', 'Tact', and 'MILA'.
